

# Safeguard America's Resources

## Property

- Decreased property value
- Disruption of property
- Inability to sell
- Inability to get mortgage or re-finance
- Restricted use of property with pipeline
- Minimal compensation
- Construction hassles
- Pay taxes on land with limited use
- Forced to surrender property via eminent domain

## Jobs and Economy

- Majority of jobs created are only temporary during the construction phase
- Many of which are skilled labor jobs often hired from outside the local community
- 20 permanent jobs may be created

## Environment

- High risk of releasing gas and/or hazardous liquids into our drinking water
- Contributes to accelerated climate change
- Methane leaks
  - Methane is a more potent greenhouse gas than carbon dioxide
- Compressor stations will release large amounts of air pollution including sulfur dioxide, nitrogen oxides, volatile organic compounds, carbon monoxide, and particulate matter.

## Human Health

- Noisy polluting infrastructure such as compressor stations, metering stations
- Pipelines carry Radon, a radioactive gas
- Potential for explosions, fires, and gas spills in your area

## The Effects of a Pipeline

## Fracking Infrastructure

- Supports the destructive and dirty method of extracting natural gas
- Supports large amounts of natural gas from the fracking site
- Gas and utility companies benefit at a cost to landowners and the environment

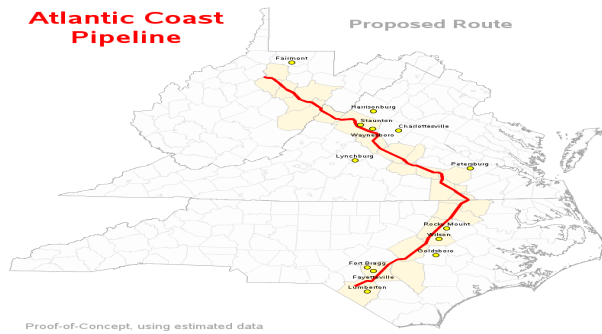

# Atlantic Coast Pipeline (ACP)

## Facts

- Dominion Transmission, Duke Energy, Piedmont Natural Gas, and AGL Resources are planning on building two natural gas pipelines; the ACP being one of them.

- The purpose of this project is to transport shale gas from Ohio, West Virginia, and Pennsylvania.
- The ACP is proposed to run 550 miles through West Virginia, Virginia, and North Carolina.

- The ACP would disrupt 12,972 acres of land during construction and retain 4,370 acres permanently. **You are receiving this notice because the construction will affect your property in your county.**
- This will leave lasting impacts on your property, the local economy, and the environment.

## What can you do?

- Learn more about the pipeline
- Know your rights as a citizen and as a land owner
- Review relevant pipeline information on the Federal Energy Regulatory Commission (FERC) website <http://www.ferc.gov>. E-register and submit comments. **Docket # CP15-554-000**
- Inform your neighbors, family, and friends
- Write a brief letter to the United States FERC:  
Kimberly D. Bose, Secretary  
Federal Energy Regulatory Commission  
888 First Street NE, Room 1A  
Washington, DC 20426
